

Year 3- What is underneath our feet?

Crust	Outer solid layer
Mantle	Widest layer of the earth
Inner Core	Liquid layer
Outer core	Solid centre

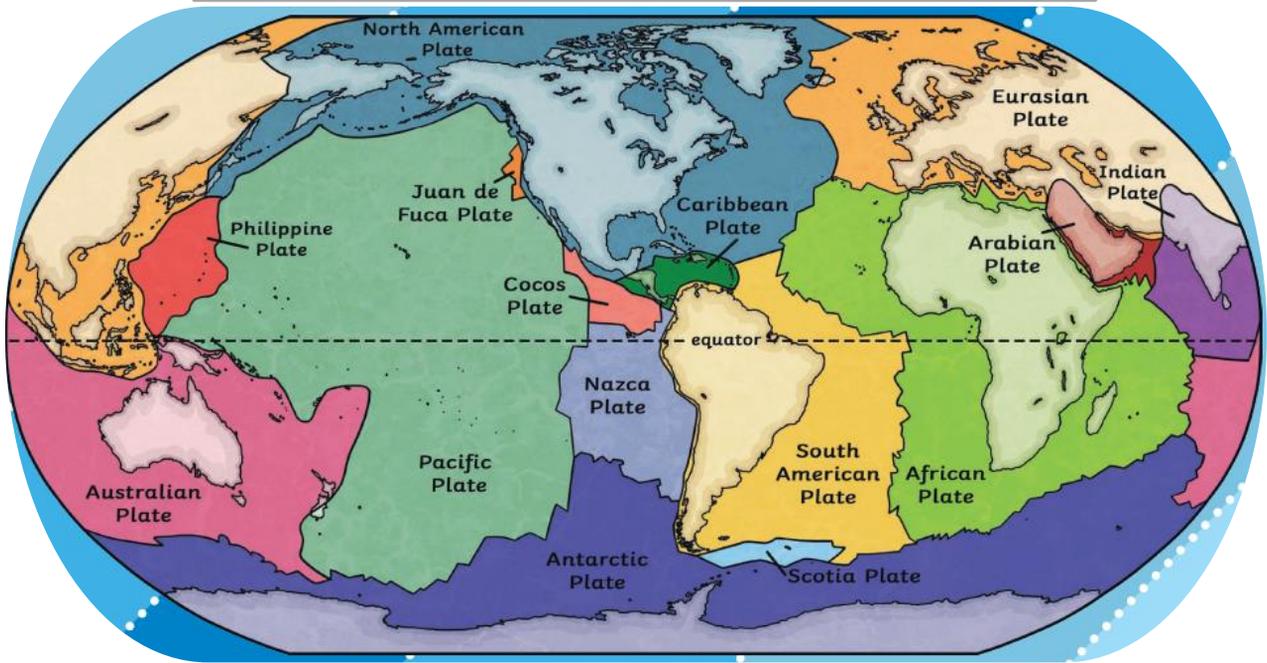

Ring of Fire A region in Pacific Ocean where many volcanic eruptions and earthquakes occur.

Volcano A very deep hole in the Earth's top layer that can let out hot gasses, ash and lava.

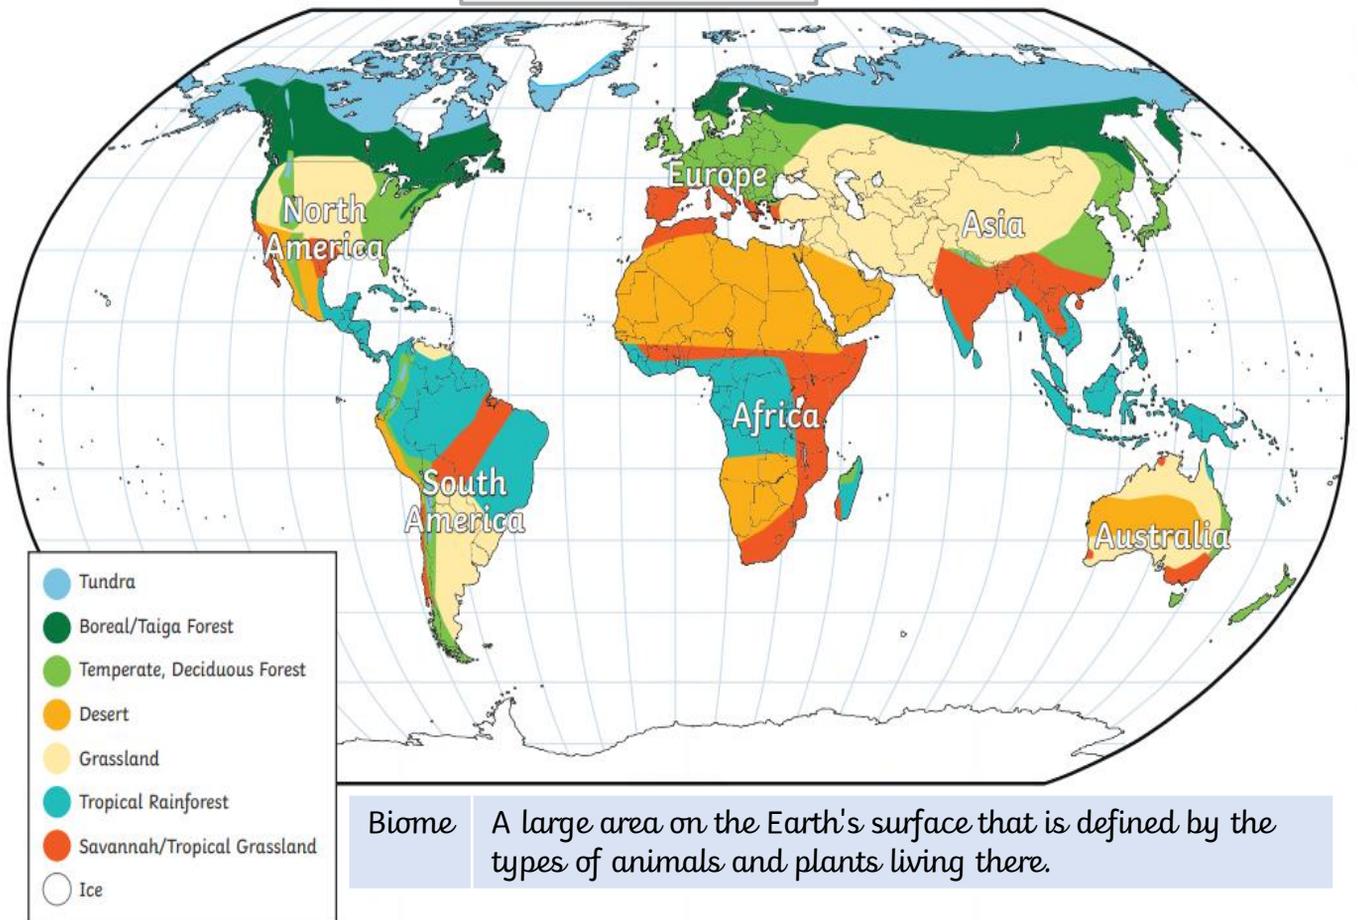

Earthquake A sudden violent shaking of the ground as a result of movements within the earth's crust.

Tectonic plates fit together like a puzzle.

World Biomes

Biome A large area on the Earth's surface that is defined by the types of animals and plants living there.
